

EMBED: a player exposes the hosted video on another page.

Embedding is a placement route governed by the host's controls and continuing availability.

OPEN-LICENSED MEDIA — CC BY 3.0

REPOST: a copied upload is a separate act.

An available embed control does not itself authorize a copied upload.

OPEN-LICENSED MEDIA — CC BY 3.0

ATTRIBUTION: creator, project, license link and modification note.

The CC BY 3.0 attribution components must remain attached to the selected artwork.
